DIRECTIONS FOR USE

SITUATION	APPLICATION RATE PER 100L WATER	CRITICAL COMMENTS
Post emergence herbicides	0.3 - 1.0L	PLANTOCROP™ may be used in place of non-ionic surfactants or crop oils. Subject to spray volumes, usage rates may vary between 0.2 - 2.0 Litres of PLANTOCROP™ .
SELECT® SPINNAKER® SHOGUN® TOPIK®	500mL 500mL 500mL 500mL	For post-emergent use on peanuts and soybeans. Refer to pesticide label.
Pyrethroid Insecticides	2.0 - 5.0L	PLANTOCROP™ may be used with certain emulsifiable concentrate formulations.
Defoliants Desiccants	0.6 - 2.0L per Ha 0.6 - 2.0L	PLANTOCROP™ may be used in place of crop oils. The higher recommended rate may be necessary when plants are subject to severe stress.

NOT TO BE USED FOR ANY PURPOSE, OR IN ANY MANNER, CONTRARY TO THIS LABEL, UNLESS AUTHORISED UNDER APPROPRIATE LEGISLATION.

GENERAL INSTRUCTIONS

PLANTOCROP™ is a highly penetrating spray adjuvant suitable for use with certain post emergent herbicides, pyrethroid insecticides, defoliants and desiccants. It improves the pesticidal performance by utilising the excellent penetration effect of esterified vegetable oils in combination with the wetting and spreading characteristics of non-ionic surfactants.

HERBICIDE SPRAYS

PLANTOCROP™ can be added to certain post emergent herbicides to increase their efficacy. In some situations **PLANTOCROP™** may reduce selectivity. Care must be exercised when applying **PLANTOCROP™** with post emergent herbicides on sensitive crops under conditions where plants are subject to drought stress, high temperatures, and high humidity. If in doubt it is a sensible precaution to trial a small area before committing to a large scale application.

PYRETHROID INSECTICIDES

Addition of **PLANTOCROP™** to certain emulsifiable formulations of pyrethroid insecticides can improve efficacy.

MIXING INSTRUCTIONS

Follow directions on pesticide label. Half fill the tank with water and add required amount of pesticide with agitation. Top up tank with water followed by addition of required amount of **PLANTOCROP™** and continue agitation while spraying.

COMPATIBILITY

PLANTOCROP™ is compatible with SELECT®, SPINNAKER®, SHOGUN®, TOPIK®.

PRECAUTION

Read all directions for use on the **PLANTOCROP™** label and on pesticide label. The pesticide manufacturer's directions and recommendations always take precedence over directions on this label.

PROTECTION OF LIVESTOCK, WILDLIFE, FISH, CRUSTACEANS AND ENVIRONMENT

Do not contaminate streams, rivers or waterways with the chemicals or used container.

STORAGE AND DISPOSAL KEEP OUT OF REACH OF CHILDREN

Store in closed, original container in a cool, well ventilated area. Do not store for prolonged periods in direct sunlight. Triple or preferably pressure rinse containers before disposal. Add rinsings to spray tank. Do not

dispose of undiluted chemicals on-site.

If recycling, replace cap and return clean container to recycler or designated collection point.

If not recycling, break, crush or puncture and bury empty containers in a local authority landfill.

If no landfill is available, bury the containers below 500mm in a disposal pit specifically marked and set up for this purpose, clear of waterways, desirable vegetation and tree roots. Empty containers and product should not be burnt.

REFILLABLE CONTAINERS

For 110L containers empty contents fully into application equipment. Close all valves and return to point of supply for refilling or storage.

SAFETY DIRECTIONS

May irritate eyes and skin. Avoid contact with skin and eyes. Avoid inhaling vapour or spray mist. Wear overalls, rubber gloves and goggles or disposable face shield. After each day's use wash contaminated clothing, gloves and face shield or goggles with soap and water.

FIRST AID

If poisoning occurs, contact a doctor or Poison Information Centre (**Phone 13 11 26**).

If swallowed, do NOT induce vomiting, give a glass of water.

MATERIAL SAFETY DATA SHEET

Additional information is listed in the Material Safety Data Sheet.
