

SACOA

Spray Grade

AMMONIUM SULPHATE

Herbicide Adjuvant

DIRECTIONS FOR USE:

SITUATION	RATE	CRITICAL COMMENTS
Minimise antagonism to tank mixes with flowable herbicides.	800g/100L of spray solution.	Half fill spray tank with clean water and start agitation. Add Sacoa Spray Grade Ammonium Sulphate Herbicide Adjuvant granules to spray tank. With agitation still running, add the required flowable herbicide to the tank and mix thoroughly.
Improve performance under adverse environmental conditions.		Add the required amount of Glyphosate based product and the remaining water; mix thoroughly. Add surfactant, if required, near the end of the filling process to minimise foaming. Always maintain adequate agitation during application and use the tank mix promptly.

NOT TO BE USED FOR ANY PURPOSE OR IN ANY MANNER CONTRARY TO THIS LABEL UNLESS AUTHORISED UNDER APPROPRIATE LEGISLATION.

GENERAL INSTRUCTIONS:

SACOA Spray Grade Ammonium Sulphate Herbicide Adjuvant should be used with non-selective herbicides only, as with some selective herbicides use may result in loss of selectivity and therefore crop damage. Ammonium Sulphate may be corrosive to metal parts of the sprayer. Thoroughly flush tanks, pumps and nozzles with water after use.

PROTECTION OF WILDLIFE, FISH, CRUSTACEANS AND ENVIRONMENT:

DO NOT contaminate streams, rivers or waterways with the chemical or used containers.

STORAGE AND DISPOSAL

KEEP OUT OF REACH OF CHILDREN.

Store in the closed, original container in a dry, cool, well-ventilated area out of direct sunlight.
Single rinse before disposal. Add rinsings to spray tank. DO NOT dispose of undiluted chemicals on-site. Puncture and bury empty bags in a local authority landfill. If no landfill is available, bury the bags below 500mm in a disposal pit specifically marked and set up for this purpose clear of waterways, desirable vegetation and tree roots. Empty bags and product should not be burnt.

SAFETY DIRECTIONS:

Avoid contact with eyes and skin.

FIRST AID:

If poisoning occurs, contact a doctor or Poisons Information Centre (Tel: 13 11 26).

MATERIAL SAFETY DATA SHEET:

Additional information is listed in the Material Safety Data Sheet, which can be obtained from the supplier.

NOTICE TO BUYER:

SACOA Pty Ltd accepts no responsibility for any consequence whatsoever arising from the use of the product other than that used in accordance with this label.
