INJECTAFORCE

SOIL PENETRANT

Blended Nonionic Soil Wetting Agent

ACTIVE CONSTITUENTS: 10% ALKOXYLATED POLYOLS
7% GLUCOETHERS AND POLYETHERS
83% CARRIER SOLUTION

**IMPROVES PENETRATION AND INFILTRATION OF WATER
THROUGH SOIL PROFILES**

**APPLIED BY CONVENTIONAL SPRAY
OR THROUGH IRRIGATION SYSTEMS**

20 LITRES

DIRECTIONS FOR USE

SITUATION	APPLICATION RATE	CRITICAL COMMENTS
Turf Management Injection	1.8 Ltr per Hectare 3.6 Ltr per Hectare 0.9 Ltr per Hectare	Apply monthly or as required throughout the growing season. For more demanding areas. For application each two weeks
Conventional Sprayers	24 mL per 100 sq. Mtr 2.4 Litres per Hectare	Apply in at least 4 Ltrs water per 100 sq. Mtr. ie 0.6% soln. Apply in at least 400 Litres water per Hectare. Follow normal irrigation schedule. Apply monthly or as required.
Injectaforce does not usually require to be watered-in following application, however turf should be irrigated before next mowing. If applied in very dry conditions follow up with watering-in.		
Tank Mixing	190 mL per 100 Litres	Injectaforce is compatible with most chemicals, however, effect of the mix must be tested on turf to determine if safe to use.

NOT TO BE USED FOR ANY PURPOSE OTHER THAN INDICATED ON THIS LABEL UNLESS AUTHORISED UNDER APPROPRIATE LEGISLATION.

GENERAL INSTRUCTIONS

Injectaforce is a blended nonionic soil penetrant that improves the penetration and infiltration of applied irrigation water. Injectaforce may be applied through conventional sprayers or by irrigation systems. Injectaforce can be applied to all fine turf species. Application is monthly or as required.

MIXING

Injectaforce mixes easily with water. Half fill spray tank, add Injectaforce and top up with hose under water level.

PROTECTION OF WILDLIFE, FISH, CRUSTACEANS AND ENVIRONMENT

DO NOT contaminate streams, rivers or waterways with the chemical or used containers.

STORAGE AND DISPOSAL

KEEP OUT OF REACH OF CHILDREN. Store in the closed, original container in a well ventilated area, as cool as possible. Do not store for prolonged periods in direct sunlight.

Triple or, preferably, pressure rinse containers before disposal. Add rinsings to spray tank. Do not dispose of undiluted chemicals on site.

Break, crush, puncture and bury empty containers in a local authority landfill. If not available bury the containers below 500mm in a disposal pit specifically marked and set up for this purpose clear of waterways, desirable vegetation and tree roots. Empty containers and product should not be burnt.

Batch No:

Date of Manufacture

SAFETY DIRECTIONS

Avoid contact with skin and eyes. Wear overalls, rubber gloves, goggles or disposable face shield. After each days use wash contaminated clothing, gloves and face shield with soap and water.

FIRST AID

If poisoning occurs contact doctor or Poisons Information Centre (TEL 131126). If in eyes, hold eyes open and flood with water for at least 15 minutes and see a doctor. If skin contact occurs remove contaminated clothing and wash skin thoroughly.

MATERIAL SAFETY DATA SHEET

Additional information is listed in the Material Safety Data Sheet which is available from the supplier.

CONDITIONS OF SALE

The use of Injectaforce is beyond the control of the manufacturer and no warranty expressed or implied is given by SST Australia Pty Ltd regarding its suitability, fitness or efficiency for any purpose for which it is used by the buyer, whether in accordance with the directions or not and SST Australia Pty Ltd accepts no responsibility for any consequences whatsoever resulting from the use of this product.
