

READ SAFETY DIRECTIONS BEFORE OPENING OR USING

RESTORE

SOIL WETTING AGENT

ACTIVE CONSTITUENT : SPECIALTY NONIONIC SURFACTANTS

IMPROVES WATER PENETRATION
AND HELPS PREVENT DRY PATCH IN TURF

OVERCOMES WATER REPELLENCY

20 LITRES

HAZARD CLASSES 6.3B 6.4A 9.1D

WARNING: Harmful. May cause irritation to eyes and skin.

ENVIRONMENTAL WARNING: Slightly harmful to aquatic environment. Avoid contaminating waterways.

PRODUCT DISPOSAL: Do not allow product to enter waterways, drains or sewers. Absorb spillage on inert material such as soil and dispose of in a suitable landfill.

CONTAINER DISPOSAL: Triple rinse container and return to recycler. Alternatively, ensure container is completely empty, burn if permitted and circumstances, especially wind direction allow, otherwise bury in landfill.

HANDLING PRECAUTIONS: When mixing or applying wear protective clothing, goggles or face shield and respirator if risk of inhalation. Do not eat or drink while using. Wash hands and face before meals and after work. Wash protective clothing after work.

HSR006701

STORAGE: Store in original container tightly closed and in dry, cool, well ventilated area, away from foodstuffs.

FIRST AID: If swallowed DO NOT induce vomiting. Rinse mouth with water and give water to drink. For advice, have product container or label at hand and contact the National Poisons Centre 0800 POISON (0800 764 766) or a doctor immediately. If skin, hair or eye contact occurs, remove contaminated clothing and flush skin, hair and/or eyes with running water for several minutes. Additional information is contained in the Material Safety Data Sheet which is available from the reseller at point of purchase or visit www.sstnewzealand.co.nz for alternate contact details. In Australia, phone 13 11 26.

DIRECTIONS FOR USE:

SITUATION	APPLICATION RATE	CRITICAL COMMENT
PREMIUM PROGRAM Regular application to achieve most uniform standard.	20 L/Ha	Apply in at least 800 L/Ha of water carrier. Apply at 4 weekly intervals or as required.
LOW MAINTENANCE PROGRAM 90 days effectiveness with limited applications.	50 L/Ha	Apply in at least 2000 L/Ha of water carrier. Apply every 3 months.
WATER OPTIMISATION PROGRAM Restore liquid Terracare	10 L/Ha 20 L/Ha	Apply in at least 1000 L/Ha of water carrier. Apply together at 4 weekly intervals. Water run off and loss through evaporation is reduced

Apply in early cool hours of the day and water in well. Early application in mid spring with a follow up treatment in mid summer will usually provide good protection from dry patch and water repellency. Spot treatments with a hand gun can be used to treat problem spots if they occur.

For general purpose use to maintain water infiltration. Excellent access to nutrients is achieved and turf health and vigour is maintained. Root moisture is maintained ensuring efficient water use.

NOT TO BE USED FOR ANY PURPOSE OTHER THAN INDICATED ON THIS LABEL UNLESS AUTHORISED UNDER APPROPRIATE LEGISLATION

GENERAL INSTRUCTIONS

RESTORE is a nonionic surfactant suitable for use in most situations where water repellency inhibits or prevents the growth of turf, gardens and crops. If left untreated poor water penetration leads to weak root growth, poor nutrient uptake and low crop yields or death of sensitive plants and turf. RESTORE provides uniform penetration of water to water repellent soils and continues to achieve deep penetration even as it dilutes while watering in. RESTORE is very long lasting and in some situations will continue to function for 12 months. Use with herbicides and fertilizers in turf is not recommended as it may increase the phytotoxicity of those chemicals. It is a wise precaution to test all mixtures before committing to large scale use.

MIXING

RESTORE mixes easily with water and should be added directly to the spray tank after the loading of water. Gentle mixing will minimise foam generation.

CONDITIONS OF SALE: The use of Restore being beyond the control of the manufacturer, no warranty expressed or implied is given by SST New Zealand Ltd. regarding its suitability, fitness or efficiency for any purpose for which it is used by the buyer, whether in accordance with the directions or not and SST New Zealand Ltd accepts no responsibility for any consequences whatsoever resulting from the use of this product.
