

READ SAFETY DIRECTIONS BEFORE OPENING OR USING

# WETOUT

## ME1001 SPRAY ADJUVANT

ACTIVE CONSTITUENT : 960 g/L Alkoxylated Alcohols

**NONIONIC WETTING AGENT**  
FOR USE WITH

**HERBICIDES and AGRICULTURAL CHEMICALS**  
REDUCES SPRAY DRIFT  
HIGHLY SPREADING, BIODEGRADABLE

20 LITRES

### DIRECTIONS FOR USE

SITUATION	APPLICATION RATE	CRITICAL COMMENTS
<b>HERBICIDE SPRAYS</b> High active Glyphosates Glyphosate 360, MCPA Dicamba , 2,4-D Amine	100 – 150mL/100L 50 – 75mL/100L	Use of the higher rate is beneficial on difficult to wet surfaces or in high volume sprays.
Paraquat and Diquat	50 – 90mL/100L	Vary rate according to spray volume. See product labels.
Soil Residual herbicides Selective herbicides	75 – 150mL/100L 25 – 75mL/100L	Apply to standing weeds to thoroughly wet foliage. Use when a surfactant is recommended. See product labels.

**NOT TO BE USED FOR ANY PURPOSE OTHER THAN AS DIRECTED ON THIS LABEL, UNLESS AUTHORISED UNDER APPROPRIATE LEGISLATION.**

#### GENERAL INSTRUCTIONS

WETOUT is a highly effective 100% non-ionic wetting agent for use with agricultural sprays. WETOUT is typically used at one half to three quarters of the rate of conventional non-ionic surfactants. WETOUT provides excellent droplet coverage and spread of the agricultural spray and produces superior spread on waxy leaf surfaces. WETOUT reduces spray drift; most notably from flat fan and other high shear nozzles.

**CROP SAFETY:** Refer to directions on the pesticide label. For sensitive crops, or in conditions of slow drying, high temperature or crop stress, test for safety by application to a small area before proceeding to full scale application.

#### PROTECTION OF WILDLIFE, FISH, CRUSTACEA AND ENVIRONMENT:

DO NOT contaminate streams, rivers or waterways with the chemical or used containers.

**STORAGE AND DISPOSAL** Keep out of reach of children. Store in closed, original container in a cool, well ventilated area. Do not store for prolonged periods in direct sunlight. Triple or, preferably, rinse containers before disposal. Add rinsings to spray tank or knapsack mix. Do not dispose of undiluted chemicals on-site. If recycling, replace cap and return containers to recycler or designated collection point. If not recycling, break, crush, puncture and bury empty containers in a local authority landfill. If not available bury the containers below 500mm in a disposal pit specifically marked and set up for this purpose clear of waterways, desirable vegetation and tree roots. Empty containers and product should not be burnt.

**SAFETY DIRECTIONS:** Avoid contact with skin and eyes. Wear overalls, rubber gloves, goggles or disposable face shield. After each days use wash contaminated clothing, gloves and face shield with soap and water.

**FIRST AID:** If poisoning occurs contact a doctor or Poisons Information Centre (Ph 13 11 26). If swallowed, DO NOT induce vomiting. Give a glass of water.

**MATERIAL SAFETY DATA SHEET:** Additional information is listed in the Material Safety Data Sheet, which is obtainable from the supplier.

#### HAZARD & PRECAUTIONARY STATEMENTS

**Harmful if swallowed. Causes skin irritation and serious eye damage.**  
Wash contaminated skin thoroughly after handling. Do not eat, drink or smoke when using this product.

**IN AN EMERGENCY  
DIAL 000  
POLICE OR  
FIRE BRIGADE**
